## DARE TO DREAM COMPETITION

Congratulations to the Wheelersburg Engineering Entrepreneurship Team. Mickayla Frazier, Baylee Kotcamp, and Miller McKenzie presented their product prototype and business idea at the Glockner Dare to Dream Pitch Competition held at Shawnee State University. This team was awarded \$2500 for their project!

**Baylee:** The Dare to Dream competition was an experience I'll never forget. It was my first time with public speaking so I was definitely very nervous, but in the end it was worth it. Our team won \$2,500, which was more than I ever thought we could win. I'm very proud of myself and my team for trying new things and having it pay out!

**Miller:** Aside from taking home \$2500, our team gained valuable entrepreneurial skills we will carry with us for life. I am so proud of my team for all the hours spent making our idea a reality. I wouldn't want to have taken this journey with anyone else!

**Mickayla:** Competing was a great learning experience and something completely new to me. We got to present in front of 6 judges and they were all from different backgrounds. They all seemed interested in our idea. We placed 8th out of 15 teams in the Tri-State Region. We were rewarded with \$2,500. When they announced our team, I was in shock. I was incredibly happy that we had made it as far as we did. This competition was an amazing learning experience that gave me a good feel in presenting in front of people.

AP English Language and Composition is a rigorous, rewarding course that pushes the bounds of creativity and analysis to augment students' critical thinking and writing abilities beyond their potential. These students worked extremely hard this year, and we are proud of them.

Every year, at finals, we discuss the previous year, reflect on our learning, and sign the Full Send Flag. That flag has the signatures of 5 years' worth of AP students, with many more to rise up in the future. It represents a commitment to push yourself as a student beyond your capacity to actualize your full potential as a thinker and writer. Strength rejoices in the challenge in #APelite!

After a brief tryout period, 2 teams of 3 players and reserves were selected to become the first eSports team to represent Wheelersburg High School for the 2024 season. By popular demand, Fortnite was the game of choice for the OHSAA-sponsored season.

Teams from across the state participated, with a total of 200 teams and over 600 players. The teams were broken into 4 regions including the Northwest, Southwest, Northeast, and Central-Southeast. Our first premiere team entered the competition in January and competed in a 6-week regular season against random teams from each region. Teams had to finish in the top 8 in points (out of 50) within the region to qualify for the live regional and state finals held at Ohio University in Athens, Ohio.

Team Orange members Jacob Blevins, Gage Hall, Dylan Kellemeier, and Landon Kemper finished first with a 41-point lead over the second-place finish. Team Black members Ethan Ferrell, Ison Emmett, Brody DeHart, and Carter Strickland finished the regular season ranked seventh. Both teams qualified for the live event in Athens.

In live competition at Ohio University, the top 8 teams in the region all played at the Bobcat eSports Arena. The top 8 teams in the other 4 regions were also participating from their locations. All 32 teams, 8 from each region, simultaneously participated in the regional finals against the teams within their region and in the state finals against the other regional teams. All 32 teams (96 players) dropped into 3 Battle Royales to determine the champions.

Team Orange finished the event as regional champions, beating all of the other teams at the Ohio University location and finished fourth in the state competition. Team Black came in fourth place in the region and finished twelfth in the state.
